SOVEREIGN JUBILEE GREEN INDUSTRIAL CAMPUS MOU | JET EOI WINDOW 4

Date: October 2026 | Ref: SCAPUSH-JET-W4-IEA-LWANDILE

MEMORANDUM OF UNDERSTANDING (MOU)

Bilateral Strategic Alliance — Just Energy Transition (JET) EOI Window 4 Submission (R 3,734,500.00 GREEN MVP)

Application Reference	Baseline EOI Funding Baseline	Execution Standard
SCAPUSH-JET-W4-IEA-LWANDILE	ZAR 3,734,500.00 (Locked MVP)	Scapush Ceremonial & Sovereign

1 Parties & Purpose of Agreement

Listen Section

This Bilateral Memorandum of Understanding (MOU) is entered into between the **Inclusive Entrepreneurship Academy (IEA)**, under the institutional directorship of **Dr. Palesa Charlotte Felix-Faure (PhD)**, and **Lwandile Engineering Projects** , led by Lead Applicant & Microgrid System Architect **Sipho Wiseman Khuzwayo.**

INSTITUTIONAL LEAD PARTNER

Inclusive Entrepreneurship Academy (IEA)

Executive Lead: Dr. Palesa Charlotte Felix-Faure (PhD)

- Entrepreneurial capacity building & youth empowerment programs
- Change-maker community integration across JET corridors
- Skills transfer frameworks & social impact metrics governance
- Transformational enterprise incubator strategic oversight

LEAD APPLICANT & MICROGRID ARCHITECT

Lwandile Engineering Projects

Executive Lead: Sipho Wiseman Khuzwayo

- MVP Waste-to-Value Microgrid Architecture (30 kWp Solar PV + 60 kWh LFP BESS)
- 120-tag SCADA hub telemetry & IoT telemetry automation
- Agri-industrial infrastructure engineering & execution oversight
- Scapush Precision Standard compliance & technical governance

CORE BILATERAL PURPOSE & GREEN R 3,734,500.00 BASELINE MVP

Both parties agree to jointly implement the **R 3,734,500.00 MVP Baseline** for the Just Energy Transition (JET) EOI Window 4 Food & Energy Sovereignty. The baseline infrastructure encompasses a fully integrated **30 kWp Solar PV system**, a **60 kWh Lithium Iron Phosphate (LFP) BESS**, a **70m³ Biodigester coupled with a 15 kW CHP Engine**, **4,800 Broilers** capacity, **160 Swine Weaners** facility, **20,000m² security perimeter fencing**, and **borehole water autonomy infrastructure**.

***Note: The 2.5 MW / 10 MWh Agrivoltaic microgrid is explicitly defined as the Phase 2 commercial expansion roadmap.**

2 Execution Roles & Governance Matrix

Listen Section

The matrix below establishes clear institutional accountability, operational scopes, and designated executive leadership across the JET EOI Window 4 lifecycle.

Partner Entity	Executive Designee	Designated EOI Role	Primary Operational Scope
Inclusive Entrepreneurship Academy (IEA)	Dr. Palesa Charlotte Felix-Faure (PhD)	**Institutional Lead & Skills Sponsor**	Capacity building, accredited training alignment, enterprise incubator governance, and change-maker network integration.
Lwandile Engineering Projects	Sipho Wiseman Khuzwayo	**Lead Applicant & Technical Architect**	Microgrid construction (30kWp PV / 60kWh BESS), 120-tag SCADA hub integration, 70m³ biodigester deployment, and site engineering.

Partner Entity	Executive Designee	Designated EOI Role	Primary Operational Scope
Joint Governance Committee	Dual Executive Leadership	**Sovereign Oversight Board**	Milestone verification, financial audit compliance, Scapush Precision protocol maintenance, and Phase 2 scale-up activation discipline.

3 Binding Financial Breakdown & Expansion Horizon

Listen Section

The parties formally adopt the locked financial budget baseline of **ZAR 3,734,500.00** for the MVP deployment under JET EOI Window 4. Budget allocations are locked under strict audit standards.

Locked MVP CAPEX Baseline Subtotal	ZAR 3,395,000.00
Mandatory Contingency Allocation (10%)	ZAR 339,500.00
TOTAL EOI FUNDING BASELINE (GREEN MVP)	**ZAR 3,734,500.00**

Site Autonomy & Fencing:
Includes full deployment of 20,000m² security perimeter fencing and Borehole-01 water supply infrastructure.

Phase 2 Expansion Horizon:
Establishes commercial rights for scale-up into the 2.5 MW / 10 MWh Agrivoltaic microgrid upon MVP completion.

4 Executive Signatures & Sovereign Seal

5 Corporate Institutional Profile & Governance

Listen Section

Inclusive Entrepreneurship Academy

Dedicated to fostering inclusive economic growth, technical skills acquisition, and community enterprise incubators within South Africa's Just Energy Transition corridors.

Contact: charlotte@inclusive-entrepreneurship.com

Lwandile Engineering Projects

Architect in renewable microgrids, environmental stewardship, SCADA industrial automation, and agri-energy hybrid systems. Operational footprint across Secunda & Kinross corridors, Mpumalanga.
